Official LeEco Le Pro 3 AI Edition X7 X650 Stock Rom Fix

DOWNLOAD

Official LeEco Le Pro 3 AI Edition X7 X650 Stock Rom

The LeEco Le Pro 3 AI Edition X7 X650 is a smartphone that features a dual camera system, a 5.5-inch full HD display, a Helio X27 deca-core processor, and a 4000 mAh battery. It runs on EUI 6.0 based on Android 6.0 Marshmallow.

If you want to flash the official stock rom on your device, you will need to download the firmware file from the link below and follow the instructions carefully. Flashing the stock rom can help you fix various issues such as bootloop, lag, battery drain, or system errors. However, flashing the stock rom will also erase all your data and settings, so make sure you backup your important files before proceeding.

The official stock rom for the LeEco Le Pro 3 AI Edition X7 X650 is version 6.0.030S, which is based on EUI 6.0 and Android 6.0 Marshmallow. The firmware file size is about 1.8 GB and it can be flashed using SP Flash Tool or TWRP recovery.

How to Flash Official LeEco Le Pro 3 AI Edition X7 X650 Stock Rom

There are two methods to flash the official stock rom on your device: using SP Flash Tool or using TWRP recovery. Both methods require a computer and a USB cable. Follow the steps below for each method.

Method 1: Using SP Flash Tool

1. Download and install SP Flash Tool on your computer from here.
2. Download and install the USB drivers for your device on your computer from here.
3. Extract the firmware file you downloaded earlier and locate the scatter file inside it.
4. Launch SP Flash Tool and click on the "Download" tab.
5. Click on the "Choose" button next to "Scatter-loading File" and select the scatter file you extracted earlier.
6. Make sure all the boxes are checked and click on the "Download" button.
7. Turn off your device and remove the battery if possible.
8. Connect your device to your computer using a USB cable while holding the volume down button.
9. Wait for SP Flash Tool to detect your device and start flashing the firmware.
10. Once the flashing process is completed, you will see a green tick mark on SP Flash Tool.
11. Disconnect your device from your computer and reboot it.

Method 2: Using TWRP Recovery

1. Download and install TWRP recovery on your device from here.
2. Copy the firmware file you downloaded earlier to your device's internal storage or SD card.
3. Turn off your device and boot into TWRP recovery mode by holding the volume up and power buttons together.
4. In TWRP recovery, tap on "Wipe" and swipe to factory reset your device.
5. Tap on "Install" and locate the firmware file you copied earlier.
6. Swipe to confirm flashing the firmware file.
7. Once the flashing process is completed, tap on "Reboot System".

Congratulations! You have successfully flashed the official stock rom on your LeEco Le Pro 3 AI Edition X7 X650.
