Tips and Tricks for Playing Truck Simulator Offroad 4

Now that you have downloaded this game on your device, you might want some tips and tricks for playing it better. Here are some of them:

- **Tip 1:** Adjust the camera angle and sensitivity according to your preference. You can switch between different camera views, such as first-person, third-person, top-down, etc. You can also adjust the sensitivity of the camera movement and zoom in or out. This will help you to see the road and your surroundings better and avoid accidents.
- **Tip 2:** Use the map and GPS to navigate the routes and avoid getting lost. You can see the map on the top right corner of the screen or tap on it to enlarge it. You can also use the GPS voice guidance to follow the directions and reach your destination. The map and GPS will also show you the locations of gas stations, repair shops, checkpoints, etc.
- **Tip 3:** Follow the traffic rules and avoid collisions with other vehicles or obstacles. You can see the speed limit, traffic lights, signs, etc. on the road and follow them accordingly. You can also use the indicators, headlights, horn, etc. to communicate with other drivers. If you collide with other vehicles or obstacles, you will damage your truck and lose money and reputation.
- **Tip 4:** Upgrade your trucks with better engines, tires, suspensions, etc. to improve their performance. You can go to the garage and buy new parts and accessories for your trucks. You can also sell your old trucks and buy new ones with better features. Upgrading your trucks will help you to drive faster, smoother, and safer.
- **Tip 5:** Join online multiplayer mode and compete with other players around the world. You can choose from different modes, such as racing, cargo delivery, tug of war, etc. You can also chat with other players and make friends. Moreover, you can check your ranking and achievements on the global leaderboards and see how you compare with other players.
