99 Red Balloons: The Story Behind the Song and How to Download It

If you are a fan of 80s music, you have probably heard of the song "99 Red Balloons" by Nena, a German band led by singer Gabriele Kerner. This song was a global hit in 1984, topping the charts in many countries and becoming a symbol of anti-war protest. But do you know what the song is really about? And how can you download it as an mp3 file for free? In this article, we will tell you everything you need to know about this iconic song and how to enjoy it offline.

What is 99 Red Balloons about?

"99 Red Balloons" is not just a catchy tune with a catchy chorus. It is a song with a deep and powerful meaning that reflects the political and social situation of its time. Here are some facts about the origin, the lyrics, and the versions of the song.

The origin of the song

The song was inspired by a real event that happened in June 1982, when Nena's guitarist Carlo Karges attended a Rolling Stones concert in West Berlin. He saw some balloons being released into the sky and wondered what would happen if they crossed over the Berlin Wall to the Soviet sector. He imagined that they would be mistaken for enemy missiles and trigger a nuclear war. He shared his idea with Nena's keyboardist Uwe Fahrenkrog-Petersen, who wrote the music for the song. The lyrics were written by Karges himself in German, with some references to his personal life.

The meaning of the lyrics

The lyrics of "99 Red Balloons" tell a story of how a simple gesture of buying and releasing 99 balloons can lead to a catastrophic war that destroys the world. The balloons are seen as UFOs by both sides of the conflict, who send their fighter jets and missiles to shoot them down. The display of force escalates into a full-scale war that lasts for 99 years and leaves no survivors or winners. The song ends with a poignant image of a lone balloon floating in the air, as a reminder of what was lost.

The difference between the German and English versions

The original version of the song was sung in German and titled "99 Luftballons", which means "99 air balloons". It was released in March 1983 and became an instant hit in Europe and Japan. However, due to its popularity, an English version was also recorded and released in 1984, titled "99 Red Balloons". The English version was not a direct translation of the German one, but rather a rewrite by Kevin McAlea, who changed some words and meanings to fit the rhythm and rhyme. For example, he replaced "Luftballons" with "red balloons", which gave a more specific color to the balloons. He also changed some details of the story, such as making the war last for one day instead of 99 years. Some fans prefer the original German version, while others like the English one better.
